Gilda's Club of North Texas Opens in Dallas

"it's always something"

Their Mission: "To provide a place where people with cancer and their families and friends come together to build emotional and social support as a supplement to medical care free of charge."

The newest Gilda's Club will open its doors this month at 2710 Oak Lawn. Gilda's Club North Texas is the first Texas affiliate of the national program created in memory of comedienne Gilda Radner by her husband Gene Wilder.

Few people in society today are untouched by cancer. For anyone who has had a loved one fight the battle against cancer, they know what an exhausting and long ordeal it can be.

Hospitals, treatment centers, and doctors offices can be cold and scary places, especially for children.

The Woodall Foundation is honored to announce its relationship with the North Texas Chapter of Gilda's Club. The Woodall Foundation has awarded Gilda's a \$25,000 grant to be used in sponsorship of the "Kid's Kitchen" area.

"The center for all Gilda's Club activities and programs is the Clubhouse, a non-residential, home-like setting with the Gilda's Club members comfort in mind. Gilda's Club members can relax in the Living Room, join meetings in the Wellness Group Room or take refuge and enjoy the quiet in the It's-Always-Something Room."

www.gildasclubtx.org

Gilda's Club works with the cancer "affected". That not only includes the person stricken with the illness, but friends and family also. They have workshops and group discussions to try and help those affected understand and cope with their feelings and illness.

Gilda's club also provides the resources for alternative therapies. They use yoga, herbal remedies and other non-traditional ways of treating not only the body but also the mind. Researchers are finally starting to acknowledge that the entire person is needing treatment, not just the cancer.

All of us here at the Woodall Foundation have had loved ones touched by cancer, and some taken way too soon. If you are in a similar situation we hope that you will take advantage of the wonderful programs at the new Gilda's Club of North Texas.

We wish them all the luck, and much success at their new home in Dallas.

Bryan's House Computers go ON-LINE with help from the Engineers at Fluent Systems

The Woodall Foundation, with funding from the Todd Wagner Foundation, has stepped forward in an effort to keep Bryan's House at the forefront of technology by purchasing a new Dell server. The first step was to upgrade the computer network file server.

With the new desktop computers several months away, the task of joining the new server with Bryan's House existing PC's was taken on by our good friends at Fluent Systems.

(L-R) David Smith and Bryan Slaughter from Fluent Systems, Beth Hunter from Bryan's House and Fluent Systems co-owner Ken Gibson

The engineers from Fluent Systems, David Smith and Bryan Slaughter, worked closely with

Bryan's House own Beth Hunter to make the transition as smooth as possible for the staff. Several late nights were required to convert the system, including a 4:30 AM all-nighter.

The conversion would not have been possible without Fluent Systems owners, Will and Ken Gibson. Fluent has provided computer sales and services to the Woodall Foundation and Mark Cuban Companies for years. Thanks to everyone who made this happen.
