Martin and Adam with Heroes for Children director Kristy Hensel delivering a new laptop to Carlos at Medical City Children's Hospital

Last year the Woodall Foundation donated \$2500 to the Heroes for Children Foundation. Their mission is to provide financial and social assistance to families with children battling cancer. One way in which they do that is by giving those children access to technology equipment, so they can stay connected to friends and school during their stay in the hospital. On March 19th Martin and Adam accompanied the Heroes for Children staff to Medical City Children's Hospital in Dallas to meet with Carlos, a newly admitted patient there to receive cancer treatment. Carlos is in the 11th grade at Lake Highlands High School and had been sharing a laptop with his cousin. A social worker at the hospital contacted the Heroes for Children Foundation and alerted them to the problem. Within a few days, Carlos had a brand new laptop of his very own, and he is looking forward to returning to school in the fall.
