The Woodall Foundation was happy to finish 2015 by awarding our beneficiaries with an end of the year grant. Each organization was asked to submit a detailed proposal of how they would benefit from a \$15,000 grant. A water leak in 2014 got the better of the carpeting at **Autism Treatment Center's** headquarters, and they requested funds to replace it. **Bryan's House** is committed to helping children learn, grow and develop in a positive environment and submitted a proposal to support its Early Childhood Education Program. Art therapy is very popular at the **Cancer Support Community** which will now house The Martin Woodall Gallery to display members' artwork. The **Texas Discovery Gardens** needed funding to enclose its Solar Pavilion and equip the new learning space with technology equipment. On behalf of the Woodall Foundation board members, Martin was happy to inform all the beneficiaries that their proposals had been approved and the checks would be awarded at a ceremony at the new Cancer Support Community facility at Texas Health Resources Presbyterian Hospital. The Woodall Foundation would like to thank all its friends who donated throughout the year and helped make these grants possible. Thank you for your continued support!

The Woodall Foundation was pleased to announce that two additional grants were awarded this year to some very deserving organizations. The **Children's Craniofacial Association** received \$2500 to send families dealing with facial differences to their annual retreat in June. The **Sandler-Kenner Foundation** received \$5000 to continue its mission to raise funds and awareness for pancreatic cancer, as well as provide support for patients with all types of cancer in the North Texas area as well as expand its trial at the Mayo Clinic aimed at defining a strategy for the early detection of pancreatic cancer. Congratulations!!
